

# Adult Development and Ageing

## Table of Contents

### **CHAPTER 1: Basic Concepts of Adult Development**

- 1.1 Introduction
    - 1.1.1 Substages of adulthood
    - 1.1.2 Perspectives on age
    - 1.1.3 The demographics of the human population
  - 1.2 A life-span developmental perspective
  - 1.3 The forces and influences of development
  - 1.4 Issues in development
  - 1.5 Domains of development
  - 1.6 Research in adult development
    - 1.6.1 Kinds of research
    - 1.6.2 Methods of gathering information
    - 1.6.3 General research designs
      - 1.6.3.1 Experimental research
      - 1.6.3.2 Correlational research
      - 1.6.3.3 Case studies
      - 1.6.3.4 Meta-analysis
    - 1.6.4 Research designs for studying adult development
      - 1.6.4.1 Longitudinal design
      - 1.6.4.2 The cross-sectional design
      - 1.6.4.3 The sequential design
    - 1.6.5 Cross-cultural research
    - 1.6.6 Research ethics
- Conclusion

### **CHAPTER 2: Physical Development and Sexuality**

- 2.11 Introduction
- 2.2 Biological theories of ageing
- 2.3 Specific physical changes
  - 2.3.1 The brain
  - 2.3.2 The senses
  - 2.3.3 Muscle strength
  - 2.3.4 Stamina
  - 2.3.5 Physical appearance

- 2.3.6 Height and weight
  - 2.3.7 Internal organs
  - 2.3.8 Physical health
  - 2.3.9 Climacteric and menopause
  - 2.4 Sexuality
    - 2.4.1 International research
    - 2.4.2 South African research
    - 2.4.3 Sexual behaviour patterns in adulthood
    - 2.4.4 Sexual orientation
- Conclusion

### **CHAPTER 3: Cognitive Development**

- 3.1 Introduction
- 3.2 Basic cognitive functions: Information processing and memory
  - 3.2.1 Attention
  - 3.2.2 Information processing speed
  - 3.2.3 Memory
    - 3.2.3.1 The concepts of memory
    - 3.2.3.2 Ageing and memory
  - 3.3.1 Intelligence
    - 3.3.1.1 What is intelligence?
    - 3.3.1.2 Does intelligence change with age?
  - 3.3.2 Problem-solving and decision-making
  - 3.3.3 Language
  - 3.3.4 Expertise, wisdom and creativity
    - 3.3.4.1 Expertise
    - 3.3.4.2 Wisdom
    - 3.3.4.3 Creativity
  - 3.3.5 Factors influencing cognitive development in adulthood
  - 3.3.6 Redefining adult cognitive development: Theoretical perspectives
    - 3.3.6.1 Jean Piaget's theory of cognitive development in adulthood: formal operational thought
    - 3.3.6.2 Neo-Piagetian approach: Postformal thought
    - 3.3.6.3 Stages of adult cognitive development
    - 3.3.6.4 Selective optimisation and compensation

## **CHAPTER 4: Personality Development**

- 4.1 Introduction
- 4.2 Models of adult personality development
  - 4.2.1 Stage models of adult personality
    - 4.2.1.1 Erik Erikson: psychosocial development
    - 4.2.1.2 Daniel Levinson: Life structure and life transitions
    - 4.2.1.3 Evaluation of the stage approaches
  - 4.2.2 Trait models of adult personality
    - 4.2.2.1 Theoretical assumptions of trait models
    - 4.2.2.2 Personality traits: A case for stability
    - 4.2.2.3 Personality traits: A case for change
    - 4.2.2.4 Forces that contribute to stability and change
    - 4.2.2.5 Evaluating the trait approach
  - 4.2.3 Cognitive approaches to personality development
    - 4.2.3.1 Self-concept models
    - 4.2.3.2 Identity models
    - 4.2.3.3 Evaluation of cognitive models
  - 4.2.4 Integrated approaches to personality development
  - 4.2.5 Personality development: An African perspective

Conclusion

## **CHAPTER 5: Social Development**

- 5.1 Introduction
- 5.2 The characteristics of adult relationships
  - 5.2.1 Intimacy
  - 5.2.2 Love
  - 5.2.3 Attachment
  - 5.2.4 Social networks
- 5.3 Lifestyle choices

- 5.3.1 Marital and non-marital lifestyles
    - 5.3.1.1 Marriage
    - 5.3.1.2 Cohabitation
    - 5.3.1.3 Singlehood
  - 5.3.2 Family lifestyles and relationships
    - 5.3.2.1 Parenthood
    - 5.3.2.2 Single-parent families
    - 5.3.2.3 Childless couples
    - 5.3.2.4 Sibling relationships
    - 5.3.2.5 Friendships
  - 5.4 Work, retirement and leisure
    - 5.4.1 The importance of work
    - 5.4.2 The career cycle
    - 5.4.3 Women's career cycle
    - 5.4.4 Leisure time
  - 5.5 Moral development
- Conclusion

## **CHAPTER 6: Successful Ageing and Mental Health**

- 6.1 Introduction
- 6.2 Successful ageing
  - 6.2.1 Ageism
  - 6.2.2 Personality characteristics
  - 6.2.3 Locus of control
  - 6.2.4 Poverty
  - 6.2.5 Dependency
  - 6.2.6 Major life events and daily hassles
  - 6.2.7 Active lifestyle
  - 6.2.8 Religion and spirituality
  - 6.2.9 Loneliness
- 6.3 Old age and mental health
  - 6.3.1 Depression
  - 6.3.2 Anxiety disorders
  - 6.3.3 Delirium
  - 6.3.4 Dementia

6.3.5 Parkinson's disease

6.3.6 Sleep disorders

Conclusion

## **CHAPTER 7: Death and Grief**

7.1 Introduction

7.2 What is death

7.3 Death anxiety

7.4 Stages of dying

7.5 The right to die

7.6 Grief

7.7 Specific losses

Conclusion
